

ReGenon Line

ANTI AGING REGENON LINE

OxygenCeuticals
breathe life into your skin

ReGenon

Regeneration + Idebenone

Oxygen-First Anti-Aging System that firms up your skin

Anti-Oxidation and Anti-Aging Line based on stabilized Niosome Method.

Dense concentrations of idebenone packed using liposomal formulation increase absorption into the skin and help with antioxidative care.

Anti-aging care for people in their 20s

Why Antioxidant and Anti-aging Care is Needed

The elasticity of the skin decreases due to the passage of time as well as external environmental factors which lead to signs of aging.

Aging is a natural change in the skin, but it breaks the skin tone with curved wrinkles on the face and mottled pigmentation.

Constant antioxidant care is needed to prevent wrinkles from getting deeper.

+

wrinkles

Recommended For:

Skin requiring antioxidant effects

- ✓ Skin that looks older due to loss of elasticity
- ✓ Eye wrinkles caused by lack of moisture
- ✓ Dry and rough skin
- ✓ Skin that feels tight regardless of product applied
- ✓ Dull and lifeless skin

Why Antioxidant Care is Needed

Skin Aging Caused by Free Radicals is Prevented Through Antioxidant Care

01

Generation of Free Radicals

If free radicals are overproduced due to several causes, they act as a causative agent that accelerates skin aging.

02

Skin Oxidation

In particular, it has a photochemical reaction to ultraviolet light, which destroys the skin's antioxidant barrier, causing oxidative stress. It then promotes melanin production, damages skin biological components, and causes aging

03

Anti-Aging

Non-enzymatic antioxidants can maintain an antioxidant defense system to repair skin damage and prevent skin aging.

Point. 01

Idebenone's (Hydroxydecyl biquinone) powerful **antioxidant care**.

It is the most powerful anti-aging agent in existence and provides antioxidant effects that are four times greater than that of vitamin C.

According to the American Dermatological Association in 2004, idebenone was evaluated to have better antioxidant properties than vitamin C and coenzyme Q10, which are famous for their anti-aging effects on the skin.

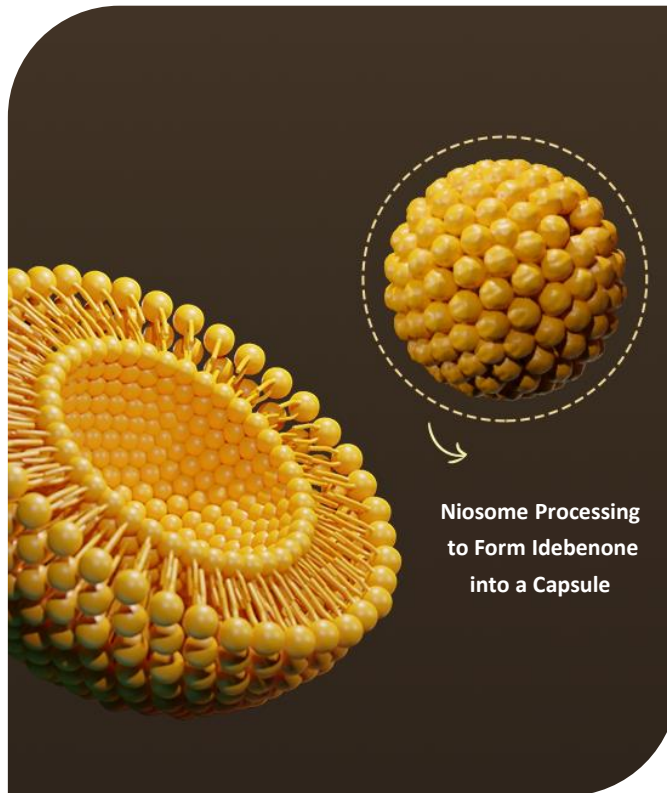

Idebenone's proven efficacy and effectiveness

Idebenone's medical efficacy measurement of photochemical skin damage, published in the U.S. dermatological journal, *Cosmetic Dermatology*, confirmed that it helps improve skin overall, such as moisturizing rough and dry skin and preventing wrinkles.

*McDaniel, DH et al. "Clinical Efficacy Assessment in Photodamaged Skin of 0.5% and 1.0% Idebenone." Journal of cosmetic dermatology 4.3 (2005): 167–173. Web.

Point. 02

Niosome Tech's Anti-oxidizing (anti-oxidizing) effects on the skin

Idebenone, a low-molecular antioxidant, is stabilized by the Niosome method to increase skin penetration to prevent skin oxidation stress and increase absorption.

Niosome Tech Protocol

A solid form of idebenone
that was difficult to dissolve

Stabilize Idebenone via
Niosome Method

High Skin Absorption

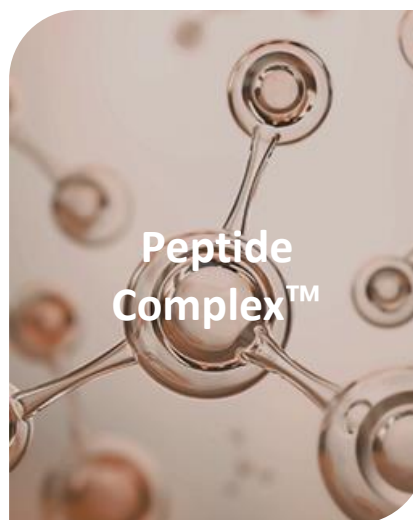

Point. 03

Anti-Complex for greater antioxidant effectiveness and superior cell activity

- ✓ Tomato Callus Cultivation Extract
- ✓ Lotus Callus Cultivation Extract

Contains high concentrations of bioactive substances that are effective in antioxidant effects as stem cells of plants

- ✓ Copper Tripeptide-1
- ✓ Acetyl Hexapeptide-8
- ✓ Acetyl Hexapeptide-1

High-stability protein peptides create ingredients in the skin to maintain skin elasticity

- ✓ Western Songak Extract
- ✓ Caffeine
- ✓ Green Tea Leaf Extract
- ✓ Hostel Kelp Extract

Excellent moisturizing effect suppresses dead skin cells and controls sebum.

ReGenon Activator

ReGenon Activator

Premium elasticity care mist that gives natural radiance without stickiness

- 01 Moisturizing coating film formation
Contains 970,000PPM of Camellia Flower Water
- 02 Radiant Skin
ReGenon Booster
- 03 Highly Moisturizing Mist
Oil-Water Texture

ANTI AGING REGENON LINE

REGENON Activator

Camellia Japonica Flower Water (970,000PPM)

- ✓ Rich in flavonoids with excellent antioxidant properties
- ✓ Helps control sebum
- ✓ Revitalizes and revitalizes the skin

Hydrogenated Lecithin

- ✓ Increases moisture retention
- ✓ Conditions the skin
- ✓ Creates healthy, radiant skin

Avena Strigosa Seed Extract

- ✓ Moisturizes dry skin
- ✓ Smooths rough skin texture

Camellia Flower Water

Radiant Coating Film

Replenishes the skin's nutrients and moisture. The Camellia Flower, which has enough vitality to survive even in the cold winter, forms a coating film that does not evaporate.

Camellia Flower Water's Clinically Proven Antioxidant Benefits & Effects

As a result of measuring the DPPH radical (active oxygen) scavenging ability of the methanol extract of each part of camellia flower, it showed a similar free radical scavenging ability to synthetic oxidants Vitamin C and Vitamin E at the same concentration, proving its strong antioxidant power.

*Kim Sun-Min, Pyo Byeong-Sik, Hwang Eun-Joo, Lee Sook-Young "Antioxidant and antimicrobial activity of Camellia japonica L. extracts native to Korea" Journal of the Korean Society of Botanical Resources 17.3 pp.314-322 (2004): 314.

ReGenon Serum

ReGenon Serum

An antioxidant brightening serum that takes care of your skin from the ground up.

- 01** Skin Tone Improvement
Brightening Functionality
- 02** Clinically Tested and Proven
To Improve Anti-Aging Benefits
- 03** Oil complex
Highly concentrated ampoule texture

ANTI AGING REGENON LINE

REGENON SERUM

Antioxidant efficacy evaluation / Brightening functionality

Clinically Tested and Proven to Improve Signs of Aging

Super Berry Complex

Apples, grapes, pomegranates, wild strawberries, plum, peach, watermelon

Protects skin from external environment
Improves skin barrier to prevent fine dust from sticking to skin
neutralizes free radicals to repair damaged skin

Oil Complex

Capricorn, capricious triglyceride, whitewood, macademia seeds, cotton seeds, jojoba seeds

Collagen biosynthesis improves skin elasticity/
relieves skin tightness due to lack of moisture/
inhibits skin aging and improves wrinkles

Amino Acid 17 Complex

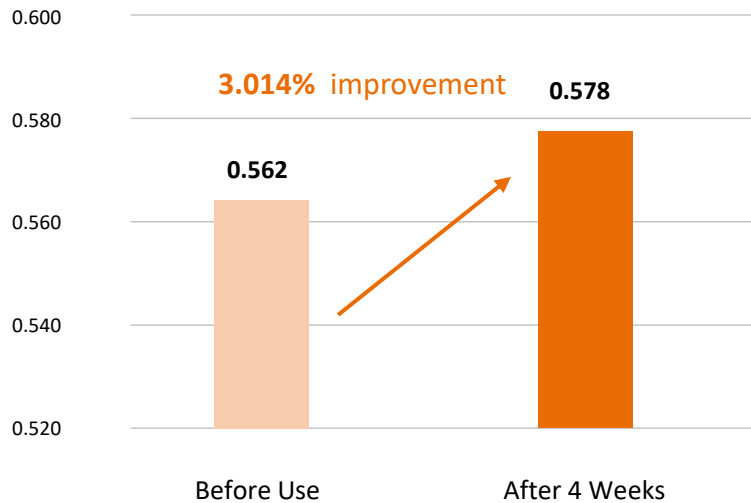

17 types of amino acids

Supplies nutrients to skin cells/
Activates skin fibroblasts to maintain moisturizing power

Oil Complex

Highly concentrated Ampoule Texture

It is designed with a highly concentrated ampoule texture so that amino acids can provide nutrition to the skin through the synergistic effect of the amino acid 17 complex and acrylic acid copolymer, a naturally-derived top reamer.

ReGenon Cream

ReGenon Cream

Anti-aging cream that increases the moisturizing power of the skin

- 01 Skin tone & elasticity care
Brightening and Anti-Wrinkle Dual Functionality
- 02 Clinically Tested and Proven
To improve signs of aging
- 03 a naturally-derived polymer
Moisturizing Coating Film Formation

ANTI AGING REGENON LINE

REGENON Cream

Brightening and Anti-Wrinkle Dual functionality

Clinically Tested and Proven to Improve Signs of Aging

Lactobacillus Complex

Rye flour, soy milk, soybean extract

- ✓ Contains vitamin E and isoflavone to prevent skin aging
- ✓ Helps with antioxidant effect, moisturizing and, skin absorption

Naturally-Derived Polymer

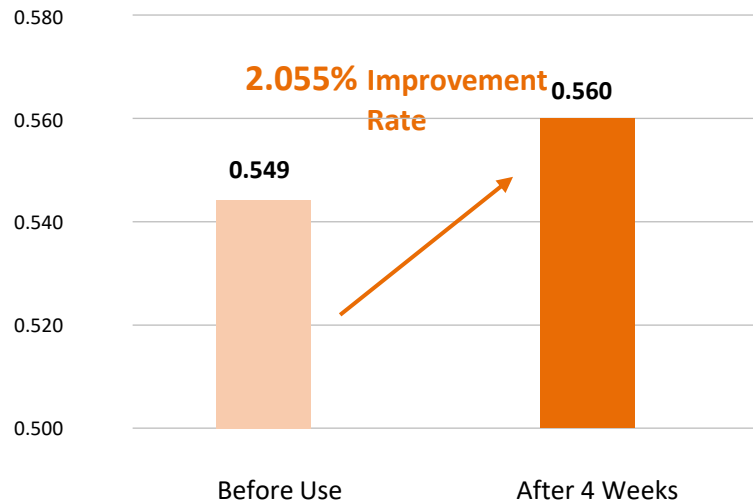

Polyglyceryl 3 methylglucose diastereate, cetearylidaEmeticon/vinyl dimethicon cross-polymer

- ✓ Moisturizing Coating Film Formation
- ✓ Applies smoothly and lightly to nourish the pores of the skin

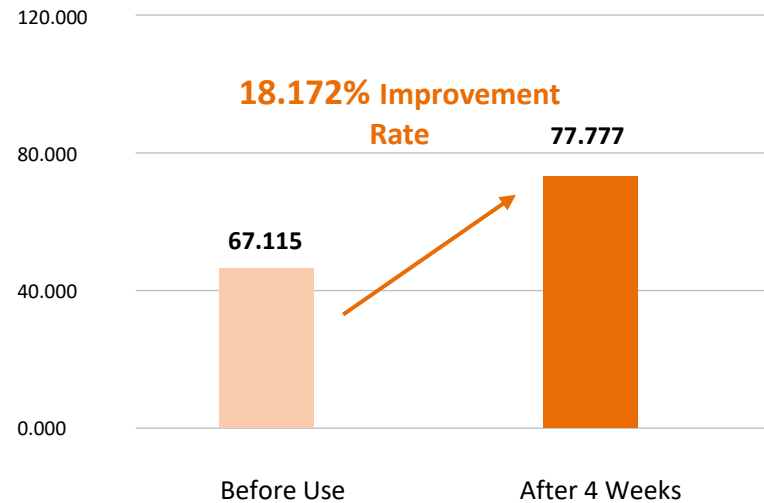

Skin Elasticity and Moisturizing Power

Clinically Tested and Proven to Improve Signs of Aging

Skin Elasticity Improvement

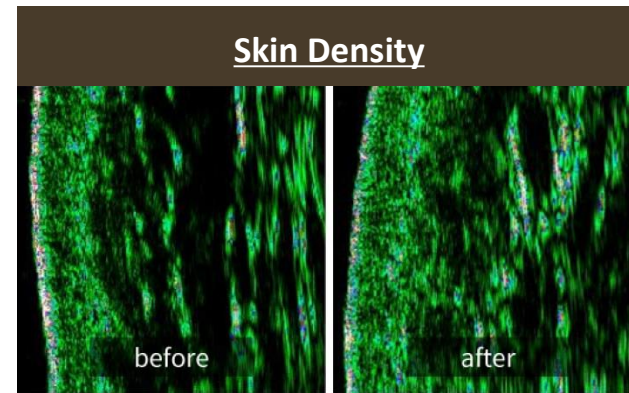

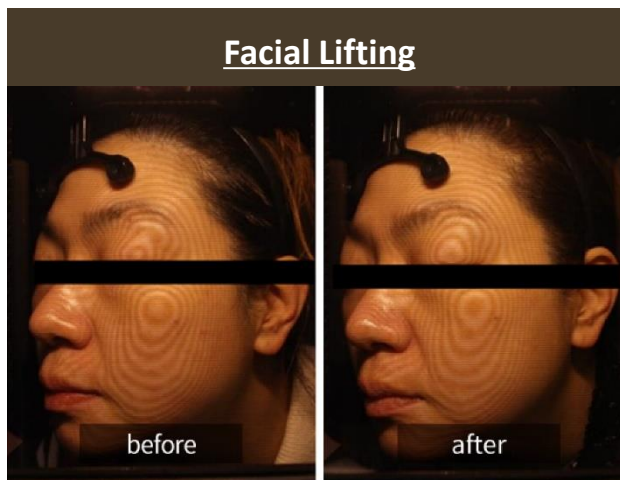

Skin Moisture Improvement

Clinical Test for Anti-Aging Effects

KC Skin Clinical Research Center / 2022.02.28~2022.03.28 / Average age 49 Adult Women / Individual Results May Vary

Clinically Tested and Proven to Improve Signs of Aging

Reduction in Crow's Feet

5.8%

Lifting in Cheek Area

4.3%

Improved Skin Density

4.9%

Natural Polymer

Moisturizing Coating Film Formation

The naturally-derived polymer forms a moisturizing coating film that protects the skin and keeps it smooth.

It fills in irregularities by filling the pores of the skin with nutrients as if applying a primer.

How to Use

How to use Regenon

Daily Care

After cleansing, prepare the skin texture with toner.

Apply ReGenon Serum and Cream in order.

If you double or triple layer the cream (according to your skin type), its moisturizing power will last even longer.

***When going out, finish with sunscreen to protect antioxidants.**

Special Care

When using the ReGenon line after peeling the skin (either with a physical or chemical exfoliator) it facilitates better absorption of the active ingredients, resulting in greater antioxidant effect.

Regenon Kit

Conetents

Regenon Start Kit

- ✓ ReGenon Serum 15ml
- ✓ ReGenon Cream 15ml

Regenon Rewind Kit

- ✓ ReGenon Activator 100ml
- ✓ ReGenon Serum 50ml
- ✓ ReGenon Cream 50ml
